

## TUITION FEES academic year 2016/2017

Tuition fees include a fixed fee and a variable fee.

### **FIXED FEE**

The fixed fee covers registration, regional tax and fixed stamp duties. For the next academic year it is **498,27 euros**.

### **VARIABLE FEE**

Degree courses are grouped in four contribution areas. The Economics and Management department belongs to area 2 and its tuition fees for academic year 2016-2017 go from **a minimum of 0,00 euros to a maximum of 2983,00 euros**.

The exact fee within the above range is calculated depending on **the financial situation of the student's family**

The economic situation of the student's family is estimated with the ISEE indicator (Indicator of Equivalent Economic Status) and calculated for each student by the university tax Office (Ufficio Tasse).

In order to have the ISEE indicator (and the resulting fee) calculated, students with income produced abroad should provide:

- ✓ **official documentation proving the financial situation of the family and family total income.**

Documentation should also include:

- ✓ **Family composition (reporting , if present, family members with serious handicap)**
- ✓ **Square metres of all properties owned by the family**
- ✓ **Market Value of family's financial assets**

**➔ The above documents must be translated into Italian and legalized by the Italian diplomatic authority.**

Students who do not provide the above documentation, will be placed in the maximum range.

Please check this link which may provide an approximate idea of the fee, according to students' financial situation: <https://sonl.unipv.it/EXEF/>

### **First instalment**

Students who enrol in a 1st year degree course pay a fixed amount of € 680.00 (fixed fee 496,09 euros. + € 181,73 advance payment of the yearly variable tuition fee). The 1st instalment payment deadline coincides with the enrolment deadline. The rest of the tuition fee has to be paid with the 2nd instalment (see below). If the amount of € 181,73 exceeds the due annual variable fee, the student will be reimbursed by July 2017.

### **Second instalment (composition)**

The second instalment is the difference between the fees for the whole academic year and the amount paid in the 1st instalment. The outstanding balance must be paid by 31 mar. 2017
